KINGSTON, JAMAICA, SWEPT BY QUAKE

Forty People Killed; Three Hundred Injured.

LOSS OF LIFE MAY BE GREATER

Fire Which Followed Shocks Is Now Reported To Be Under Control—Injured Are Being Cared For as Rapidly as Possible.

Boston, Jan. 17.—The United Fruit company, in this city, received a cablegram from Jamaica Wednesday, stating that several hundred persons were killed in Kingston. The message follows:

"Mercantile section of Kingston, including our office, completely destroyed by earthquake and fire. Several hundred killed."

"The Myrtle bank and the Constant Spring hotels were practically destroyed."

New York, Jan. 17.—Some further details of the disastrous earthquake that overtook Kingston, Jamaica, were received here early Wednesday. It is estimated, these details state, one-sixteenth of the city was destroyed by the shocks and the fire that followed. The number of killed is placed at thirty and the injured at three hundred.

Many structures went down in the lower section as a result of the first shock and fire started along the port wharves. The excitement and confusion of the debris which closed many streets, hampered the firemen, and it was some time before they could get to work fighting the flames.

The people rushed wildly about following the first earth tremor, which lasted several minutes and succeeding shocks, which came quickly but which were of less force, aded to the terror of the inhabitants.

The crash of toppling houses added to the general fright and it was some time before the people recovered and set to work to rescue the unfortunates, who had been caught in collapsed buildings.

The general hospital was not seriously damaged by the earthquake and to this place the injured were taken as fast as they were recovered.

Sir James Swettenham, governor of Jamaica, was prompt in taking measures to stop panic and disorder. He was ably assisted by Sir Alfred Jones, a visitor.

Many people made their way to the hills, folowing the disaster but their flight was orderly.

The fire was under control late Monday night. It was still burning in places along the wharves, but the danger of its spreading was believed to be over.

The Myrtle bank hotel is a ruin, as is the British military station and the Camp hospital.

Sir James Ferguson was killed, he being the only foreigner so far reported as being lost.

Panama, Jan. 17.—Great excitement and anxiety regarding the Jamaican earthquake is felt here. So far only meager reports have been received as cable communication with Jamaica is interrupted. Many persons here and in Colon have relations with merchants in Kingston, the unfortunate city.

Range Conditions Bad.

Glendive, Mont., Jan. 17.—Range conditions in this section of Montana are said to be the worst in the history of the country. The range is covered with snow from a depth of 1 inches to 3 feet. Stock in that country that is not supplied with food and shelter will be a total loss. Sheepmen will suffer the heaviest, as horses and cattle can be driven out to some extent.

Conductor Had Leg Broken.

Talbotton, Ga., Jan. 17.—As a work train was coming into Talbotton and when near Smithsboro, the tender and engine, with five flat cars, were derailed. Conductor Nickerson had a leg broken, while five or six of the train workers were more or less

TILLMAN ORDER OF DISMISSION.

Is Now of Peculiar Interest to South Carolinian.

Columbia, S. C., Jan. 17.—In connection with Senator Tillman's stand against President Roosevelt in the Brownsville affair, his order discharging a company of militia during the "Darlington war," in March, 1894, is of peculiar interest at this time.

The company, which was the Newbery Rifles, had been placed at the telegraph office to act as censors. The next day they asked to be allowed to resign, but this request was refused in the following order, issued to the governor:

"Under the laws of South Carolina the governor is clothed with discretion and power to call out the militia whenever in the judgment of the governor it may be necessary, and when so called into the service of the state the militia shall be subject to the same rules and articles of war as the troops of the United States. The action of your company and your daring to send it to me under these rules is mutiny and an insult to the commander-in-chief who was given his commission by the people. The duty of the soldier, and the militia are soldiers, when called into service is blind obedience to the orders from his superior or not to question them in any degree. You have failed to learn the first lesson and I will make you and your company an example. Your resignation is not accepted, but you are dismissed from the service of the state as unworthy to wear its uniform."

PISTOL BATTLE WITH MAN.

Chief of Police Wounded and Others Were Badly Hurt

Augusta, Ga., Jan. 17.—A special from Springfield, S. C., says:

"William Fleming, a photographer, was shot through the hip and stomach and fatally wounded; Chief of Police Halloway is shot through the thigh, and Calvin Cooper is seriously wounded in the thigh.

During the afternoon Fleming and a friend, in a drunken condition, began tormenting horses of farmers left in a wagon lot. When the chief of police attempted to arrest the two men they resisted, drawing guns.

Cooper was pressed into service by the officer, and immediately a battle ensued. Fleming took Halloway unawares, and fired a ball through his thigh, turning the pistol on Cooper, wounding him in a serious manner. While on the ground Halloway shot Fleming in the thigh and stomach.

$400 Diamond Stickpin Lost.

Brunswick, Ga., Jan. 17.—The loss of a $400 diamond stick pin may cause the resignation of Southern Express Agent B. W. Hendricks. Agent Hendricks handled a small package addressed to Mrs. W. G. Brantley to a negro driver of the company, Eugene Simmons. He urged the man to use care in handling the package. An hour later Simmons telephoned he had lost the package from his pocket. So far no trace has been found of it. Congressman Brantley had carried the diamond to Washington, at which place it was reset in a stickpin. The jeweler expressed it to Mrs. Brantley. The loss falls on the agent, as the driver was not bonded. The regular bonded driver was sick in bed and this led the agent to intrust it with Simmons.

Murderer Still at Large.

Richland, Ga., Jan. 17.—The citizens of this place are still making every effort to capture the negro who murdered Marshal C. C. Carter some days ago, the report of his apprehension which was published in some of the newspapers being without foundation. The description of the negro is as follows: "Red complected mulatto, nose inclined to Roman, narrow face, high cheeks with jaws a little sunken, sharp chin, clean shaved when last seen, age about 27 to 30 years, weight about 135 to 150 pounds, slow spoken, inclined to stammer, slightly bow-legged." Rewards to the amount of $600 are outstanding for his capture.

Killed by His Cousin.

Clarkesville, Tenn., Jan. 17.—Upshaw Brady, aged 20, was shot and instantly killed by his cousin, Dan Brady, a 16-year-old boy. The shooting was accidental.

INVENTOR MALLORY COMMITS SUICIDE

Temporarily Insane From Study Over His Inventions,

SENT BULLET THROUGH TEMPLE

Walking Into Capitol Avenue Store Mr. Mallory Suddenly Pulled a 38-Caliber Pistol From His Pocket and Shot Himself.

Atlanta, Jan. 17.—A. R. Mallory, an inventor, shot and killed himself Wednesday morning in the store of D. A. Winkle. He is supposed to have committed suicide while in a fit of temporary insanity, caused by ill health and study over inventions.

Mr. Mallory was 52 years of age, and leaves a wife and two children, Howard Mallory and Miss Mrytle Mallory, both of whom are grown.

Shortly before 7 o'clock Wednesday morning Mr. Mallory entered the store, which is only a short distance from his home. N. W. Winkle, a brother of the proprietor, was present at the time. He spoke to Mr. Mallory and asked:

"Is there anything we can do for you today?"

"No; nothing now," he replied, at the same time walking slowly toward the rear of the store.

A moment later Mr. Winkle had occasion to go to the front door. While on the sidewalk he was startled to hear the report of a pistol in the store. He turned hurriedly and saw Mr. Mallory as he fell to the floor.

The bullet was from a 38-caliber revolver. It entered the right temple and pierced through the head. Attracted by the report of the pistol, E. L. Thomas, a butcher in an adjoining meat market, ran into the store, he and Mr. Winkle being the first persons to reach the side of the injured man.

It is stated that Mr. Mallory lived for some time after he was shot, but never spoke.

The remains were carried directly to the undertakers where an inquest was held.

Mr. Mallory had resided in Atlanta for the past 15 years. He was the author of a number of inventions, the most important of which is the Mallory plow. The rights to this patent, it is stated, were sold by him some time ago at a good profit.

Recently Mr. Mallory is said to have devised what he termed a decided improvement on his former invention and had been negotiating with a view to having it manufactured. He was completely wrapped up in his work and the supposition is that the thought and worry involved caused his mind to become unbalanced for the moment.

Quiet and retiring in disposition, Mr. Mallory is described as a man, who was fond of home life. "Home was always headquarters for him," said a friend Wednesday morning. He was kind and considerate and was ever mindful of comfort and welfare of his wife and children.

Mr. Mallory is survived by a brother, A. H. Mallory, who resides at Madison, Ga. Arrangements for the funeral have not been made.

Allegheny River On Rampage.

Pittsburg, Jan. 17—Three hundred feet of the west bank of the Allegheny river at Springdale, Pa., was washed away during the night as a result of the bursting of the government dam, and the erosion continues. A large frame dwelling, known as the Forniff house, was carried down the river, nine other dwellings and the Heidenkamp Mirror company's plant are in imminent danger.

Will Arrest Son of Fairbanks.

Steubenville, O., Jan. 17.—Sheriff Voorhees sent a telegram to the sheriff of Clark county, at Springfield, O., Wednesday, to place Frederick C. Fairbanks, son of Vice President Fairbanks, under arrest, under his indictment Tuesday by the grand jury for perjury in connection with his procuring a license to marry Helen Scott, daughter of the millionaire iron master, James Scott, of Pittsburg.

LOCOMOTIVE BOILER EXPLODES.

Five Trainmen Were Killed by the Accident.

Norristown, Jan. 17.—The boiler of a Philadelphia and Reading freight engine exploded at Bridgeport near here killing five trainmen.

All of those killed resided at Allentown.

The engineer of the train, J. D. Blank, escaped.

He was stunned by the explosion, but walked to Bridgeport station and boarded a train for Reading, where he said he would report the accident. The train had come from Allentown and was bound for Philadelphia. The explosion is thought to have been due to low water in the boiler. All the men killed were trainmen.

The rear portion of the boiler was hurled about 150 yards, while the wheels of the engine remained on the track.

Scheder received the full force of the explosion and was torn to pieces. The others were shocked and scalded to death.

Runaway Wife Caught.

Charleston, S. C., Jan. 17.—Mrs. Maude Jones, wife of Charles Jones, a railroad man of Jacksonville who ran off with her husband's brother, has been arrested in Jacksonville, after having been searched for in this city and many other places through this section of the country. Two friends of the injured husband were in Charleston last April, hunting for Mrs. Jones, having traced her here from Savannah, but they lost their trail. The charge of adultery was placed against the woman by the Jacksonville police, but after the arrest, the husband withdrew the charge and paid the costs and now the family is again united. They have a three-year-old daughter.

Won $2.000 on Races.

Great Falls, Mont., Jan. 17.—After winning $2,000 in a local pool room on the results of the races at Oakland, and Ascot, William H. Molden, a telegraph operator in the employ of the Postal Telegraph company, was arrested on a charge of sending false messages. The pool room management alleges that he was a party to a successful wire tapping scheme. Molden commenced betting with $40 and made three bets which netted him $1,950. It was later learned by the manager of the pool room that false returns had been received over their wire as two of the horses on which Molden had cashed bets were not winners on the day's card.

Boats Use New Channels.

Louisville, Ky., Jan. 17.—A special from Evansville, Ind., says that boats on Wednesday began using the new channel cut by the high water in the Ohio river. The stream may permanently change its course, and if it does Evansville will be left high and dry. The high water threatens the water works. The embankment surrounding it was washed away on Wednesday morning, and the in-take pipes are in danger of destruction.

Flood Condition Serious.

Cincinnati, O., Jan. 17.—Flood conditions are reported at all points between Point Pleasant and Cincinnati by the weather bureau Wednesday. The Observer announces that the outlook is serious. Lowlands are under water all along the river, but the early notice of the approach of the high water gave merchants time to remove the most of their stock to places of safety.

Ordered to Kingston.

Hamilton, Bermuda, Jan. 17.—The British cruiser Brilliant, which arrived at Bermuda Tuesday from Newfoundland, where she has been on special duty in connection with the New Fo[illegible] fisheries, has been ordered to proceed at once to Kingston, Jamaica, to render assistance at the scene of the earthquake and fire.

Italian Killed by Explosion.

Monroe, Mich., Jan. 17.—One Italian workman was killed and another badly injured by the explosion of a ton of dynamite in the South Shore Stone company's quarry, 2½ miles east of here. The cause of the explosion is a mystery. The concussion was felt for 15 miles.

WILLIAMS TURNED DOWN BY CANNON

Minority Leader Not Considered by Speaker.

WILLIAMS WAS DUMBFOUNDED

He Recommends Democrats to Fill Vacancies on Committees, but Cannon Pays No Attention and Makes His Own Selections.

Washington, Jan. 17.—Speaker Joe Cannon has for the second time in a month refused to accept the recommendation of Minority Leader Williams in the appointment of a democrat to fill a vacancy on an important committee.

Leader Williams designated Representative E. Y. Webb, of North Carolina, to fill a vacancy in the democratic membership of the judiciary committee. Several friends of Representative Webb also indorsed the recommendation, although the action of Mr. Williams should be altogether sufficient to secure action by the speaker. Nothing further was heard of the matter until Speaker Cannon announced the appointment of Representative Shirley, of Kentucky, to fill the vacancy on the committee.

Leader Williams was dumbfounded. He was mad and didn't hesitate to voice and show his displeasure. He feels that the speaker is trifling with the minority and ignoring its organization. He was in conference with special close friends respecting the course he should pursue, and it is intimated that he may try to induce Mr. Shirley to refuse the appointment. Failing in this, he may wash his hands of the whole matter of committee recommendations and let the speaker name both the democratic and republican members.

Joe Bailey, of Texas, while minority leader of the house, and while Thomas Brackett Reed was speaker, was asked to make all the minority appointments. Bailey asked if the speaker would adopt his recommendations. The story goes that Czar Reed promised that he would, but with the reservation that he would reject such as he saw fit. In reply to this Bailey affirmed that the speaker might then have the pleasure of naming the entire committee, as the democratic leader would have none of it. If leader Williams refuses to make further recommendations for the approval or rejection of the speaker, his action will not be without a precedent.

The explanation current in the house was that Speaker Cannon's action was dictated by the whisky interests. Representative Webb, whom Williams named, is a temperance man and a supporter of the Dolliver-Heyburn bill, which seeks to prohibit interstate shipments of liquor into dry communities.

Representative Shirley is from Louisville, and is known to be actively opposed to the measure. The bill is now pending before the judiciary committee, and that committee is about evenly divided on the question of reporting it to the house. Although he has two desirable committee appointments, and was not a candidate for the new place, Speaker Cannon has, nevertheless, named Mr. Shirley, over Williams' protest, to be a member of the judiciary committee.

Lumber Vessels Aground.

Fernandina, Fla., Jan. 17.—The Norwegian ship Ruby, Captain Eriosen, drawing 21 feet of water, laden with lumber for the Canaries, went hard and fast aground just south of the quarantine station, while being towed to the lower anchorage. Tugs will endeavor to pull the ship off, but fears are felt that this cannot be accomplished.

Makes Successful Voyage.

Paris, Jan. 17.—Count Henri de La Vaulx has made a successful voyage with his new steerable balloon. He is said to have attained a speed of seventeen miles an hour and to have steered and sailed his balloon at will. He descended at the appointed landing place after the trial was over.

RECENT COLD WAS A SERIOUS LOSS

Well Posted Man Says Nearly 500,000 Boxes Oranges Lost.

ST. PETERSBURG WAS SAFE

Of the Extensive Investigation Made, It Was Ascertained That the Fruit in That Section Suffered Less Damage. Trees Were Also Damaged.

L. L. Hill, representative of a large New York commission firm, has returned from an extended trip through South Florida.

Mr. Hill included in his itinerary various sections of the State from Sanford to Fort Myers and the Caloosahatchie river, St. Petersburg and points on the Manatee river and Sarasota bay. He reports that a great majority of the fruit which was caught on the trees by the recent cold was frozen, and in many instances the ground in the large groves was thickly covered. The budded trees were injured, but older stock did not suffer materially. The nursery stock also suffered considerably.

"St. Petersburg section seemed to suffer less damage than any other section visited," he said. "The peculiar formation of the St. Petersburg peninsula seems to be of great advantage as a protection to both fruit and trees, and the fellow who has a grove in that section is certainly in luck."

Mr. Hill states that considerable lettuce is now being shipped from the Manatee river section, and that the trucking interests there are good, considering the continued drought. The drought has caused the marshes to dry out, with the result that marsh fires have been numerous and damaging there.

"The cold I calculate has cut the orange crop one-half," Mr. Hill said, in again referring to the freeze. "There should have been 3,000,000 boxes this year, and about half of them had been marketed. Of the other half, about two-thirds, possibly more, have been lost."

BOBBITT'S MILL WORKING.

Plant is Now Employing Many Hands, and Cutting Quantities Lumber.

The big sawmill of W. D. Bobbitt, Micanopy, which has been under course of erection since early December, has gotten to work, and a large number of hands are employed there. The mill is one of the largest and best in this section, and, being conveniently located near a large body of fine timber, will prove of great benefit to the people of Micanopy, as the plant will be enabled to keep constantly engaged.

DR. SLEDD DELIVERS ADDRESS

Several Prominent Speakers to Take Part in Program—Meeting Open to All Citizens—Mass Meeting for Men Sunday.

The conference opened on Thursday evening at the University chapel. Delegates have arrived from all the leading schools in the State. After general remarks by various persons, Dr. Sledd, president of the State University, spoke on the relation of Bible study to a college education.

The speakers and leaders who are expected to take part in the conference are Mr. C. S. Cooper of New York City, the Bible study secretary the college Young Men's Christian Associations for North America; Mr. J. V. Read, State secretary of the Georgia Young Men's Christian Associations; Mr. W. D. Weatherford, International secretary in charge of the work for the South; Mr. R. M. Harper, Student secretary for the South.

Dr. Sledd and others will assist in the program.

Dr. A. L. Phillips and Dr. Lincoln Hulley will not be able to attend the conference.

The meetings of the conference are open to all citizens. The program and places of meeting are as follows:

Friday—9 to 12 a. m. and 3 to 4:30 p. m., College chappel; 7:30 p. m., Methodist church.

Saturday—9 to 12 a. m. and 7:30 p. m., College chapel.

Sunday, 11 a. m.—Baptist church; 7:30 p. m., Presbyterian church.

There will be a mass meeting for men at the College chapel Sunday 3 p. m. The subject for the meeting will be, "The Power of a Clean Record." All men are cordially welcomed to this special service.

Notice to Painters.

Sealed bids for the painting of the Methodist parsonage. Two coats of best paint on the outside, including the cover to the bay window and floors of the porches. Also one coat on inside wood work. Two coats on the fence. The committee wants the figures on the outside, inside and fencing all separate, and reserve the right to reject any and all bids. Bids must be sealed up and mailed to Mrs. J. M. Dell not later than Saturday, 26th instant.

Vermont's Two Seasons.

One winter when Thaddeus Stevens had come back to his Vermont home he was the victim of a severe cold and could not leave the house for many weeks. One of his callers was Lewis Clark, a man of short stature, who in earlier days had been a playmate of the "Old Commoner" and was a near neighbor of the Stevens family in their Peacham home. Vermonters had just begun to wear buffalo coats, and Mr. Clark arrived at the Stevens home almost lost in a coat which reached to the ground. His upturned collar completely covered his ears and face, while a fur cap completed the disguise.

"Is that you, Lewis?" asked Mr. Stevens in an incredulous tone.

"Yes, Thad," he replied.

"Well, skin yourself and sit down," exclaimed the other.

During the interesting conversation which followed Mr. Clark asked Stevens if he wouldn't come back to his Vermont home and live.

"No," replied Stevens. "You have but two seasons here—winter and late in the fall."—Harper's Weekly.

The Crocodile's Strong Jaw.

Sir Samuel Baker in his "Wild Beasts" says that the power of the jaws of the crocodile is terrific. Once he had the metal of a large hook, the thickness of ordinary telegraph wire, completely bent together, the barbed point being pressed tightly against the shank and rendered useless. This compression was caused by the snap of the jaws when seizing a live duck which he had used as a bait, the hook being fastened beneath one wing. On one occasion he found a fish weighing seventy pounds bitten clean through as if divided by a knife. This, again, was the work of a snap from the jaws of a crocodile. M. Paul Bert once made experiments on the strength of a crocodile's jaws by means of a dynamometer. He found that a crocodile weighing 120 pounds exerted a force of 308 pounds in closing his jaw. The lion has an enormous jaw power. On one occasion an African traveler pushed the butt end of his gun into a lion's mouth, and the pressure of the jaws cracked it as though it had been struck

Lard has been in existence a long time—so has indigestion

Human nature is hard to solve. People who are most particular about adapting the weight of their wearing apparel to the season and its conditions, who never think of going out in a storm without an umbrella and rubbers, who would not sit in a draft for a farm, will calmly sit at the table and stuff themselves with lard-soaked food and not realize for an instant that it is likely to give them a full-fledged case of indigestion and clog their whole inner machinery.

Lard is produced from hog-fats, sometimes impure, always indigestible, and there's a good day coming when no one will think of using it for cooking. *Cottolene* is the only rational frying and shortening medium in the world. It is made from refined vegetable oil and choice beef suet—everything about it is digestible and conducive to health.

It is a product of Nature.

It will make pure, palatable, healthful food, and food which anyone can eat and enjoy without the after-pangs of a disordered stomach.

Every good grocer sells *Cottolene*.

It comes only in sealed white pails with a red label and band. In the center of the label is our trade mark—a steer's head in cotton plant wreath.

Try *Cottolene* once and you'll nevermore be a friend to lard.

COTTOLENE was granted a GRAND PRIZE (highest possible award) over all other cooking fats at the recent Louisiana Purchase Exposition, and food cooked with COTTOLENE another GRAND PRIZE.

"Home Helps" a book of 300 choice recipes, edited by Mrs. Rorer, is yours for a 2 cent stamp, if you address The N. K. Fairbank Company, Chicago.

A NEW FEATURE—The patent air-tight top on this pail is for the purpose of keeping COTTOLENE clean, fresh and wholesome; it also prevents it from absorbing all disagreeable odors of the grocery, such as fish, oil, etc.

PUTNAM COUNTY HAS A HARD ROAD FEVER

Distinguished Citizens Visit Gainesville to Get Pointers.

WERE PLEASED WITH ROADS

Visited Scenes Where County and City Forces Were at Work, Inspected Machinery, and Felt Benefited by What They Had Seen.

The good people of Putnam county, who, as a rule are enterprising, are becoming deeply interested in the matter of good roads for the county. With the inauguration of the good roads project between Palatka and Interlachen, a prosperous village eighteen miles west of the county seat, the interest in good roads has waxed warm. This road, which will be constructed at a cost of from $600 to $700 a mile, was largely secured through private subscription, $500 per mile having been subscribed by the citizens along the proposed route, while the county commissioners agreed to pay the balance. Work is already progressing on this road, two miles having been constructed from Interlachen east, and a good force is now at work.

L. C. Stephens of Palatka, chairman of the Board of County Commissioners of Putnam county, and J. H. Wylie of Interlachen, another good roads advocate who has the work of construction in charge, came to Gainesville to take some notes in reference to road building. These gentlemen were taken by County Commissioner C. C. Pedrick, County Clerk S. H. Wienges and Jesse E. Burtz over the roads adjacent to Gainesville, visiting the West Gainesville road, where the county is now at work, and also the North Gainesville rock road, where city force is engaged.

Messrs. Stephens and Wylie were very much impressed with the hard roads so far constructed in this section, and admitted that they had been benefited by what they had seen.

"What I want to see, and what we will eventually see, is a hard road from Palatka to Gainesville, via Interlachen, Keuka, McMeekin and Hawthorn," remarked Mr. Wylie. "We will complete the road to Palatka, a distance of eighteen miles, when the project will be taken up to build west from Interlachen to Hawthorn, a distance of twelve miles, which is the western boundary of our county. I have been told that you have already about four miles of hard road between Gainesville and Hawthorn, which will then only leave a 'gap' of about twelve or fourteen miles to be completed, which will give us the desired hard roadway between Gainesville and Palatka. It would be a fine thing, in fact the best thing that could happen for the two cities and the intermediate country."

Mr. Stephens was also very enthusiastic. He says Putnam county is going to show the State something in road building within the next five years which will be an example for others to follow. "It took us a long time, but we have got the fever now—and we have got it right," he said. "Look out for Putnam county in future, for she is in the good roads line."

Messrs Stephens and Wylie, after having been driven about the city, admired the elegant residences and fine sidewalks and streets. They left on the afternoon train for home.

Child Injured by Torpedo.

Buchanan, Ga., Jan. 17.—While playing with a torpedo he had found Herschel, the 6 year old son of Dr. J. F. Reid, of this place, in some way caused it to explode, a piece of it striking him in the face and making an ugly but not necessarily fatal wound.

A Gentleman of the Old School.

Lady Dorothy Nevill in her reminiscences tells a story of her father, a gentleman of the old school, "in nankeen shorts, with white stockings and a brass buttoned blue coat, with big collar, over a beautifully embroidered waistcoat." But he swore, after the manner of the age. "He was traveling at night on the continent alone in a post chaise when the postboy, while passing through a forest, began to drive like a man anything but certain of his way. My father's wrath soon rose, and the explosion of strong language which issued from the carriage so alarmed the driver that, murmuring, 'Je ne veux pas conduire le diable' (I will not drive the devil), he pulled up and, having expeditiously unfastened the traces, made off with his horses at a gallop. My father, I believe, passed the whole night alone in the woods."

The Aerial Carib Fish.

A traveler in Venezuela gives an interesting description of the fish of the Orinoco country. He says the party several times came in contact with the carib fish, which are the most ferocious inhabitants of the water known. The fish are not over fourteen inches long, but they travel in schools. Their teeth are three cornered. Any living object which attracts their attention is attacked with fury. Mr. Thompson tells of an Indian woman who entered the water to fill a bucket. She was attacked by the fish and reached shore only to die in fifteen minutes. The flesh was literally torn from her body. Mr. Dart, who was with Mr. Thompson, caught one of the fish and pulled it upon the bank. He held the carib under his foot while he pointed at the peculiar teeth with his finger. With a quick movement the carib flopped out from under Mr. Dart's foot and seized him by the finger, cutting that member to the bone. The fish frequently have been known to bite ordinary fishhooks in two.

Progress of Dentistry.

Though dentistry became a science under the hand of Professor Richard Owen as late as 1839, there are evidences that it was practiced in a crude way by the ancients. Herodotus refers to treatment of the teeth by the Egyptians, and evidences of attempts to supply artificial teeth have been discovered in ancient skulls and mummies. Galen was the first physician to speak of treatment of troublesome teeth, and Ambroise Pare, in his work on surgery in 1550, makes mention of the preservation of the teeth. It is only since the middle of the last century, however, that dentistry has become a branch of surgical science. Before that time bad teeth were extracted, and mere tooth drawing constituted dentistry early in the nineteenth century. The first dental school in the United States was erected at Baltimore in 1839. In 1845 Cincinnati boasted of a similar institution, and in 1856 a dental school was erected at Philadelphia.

Colonial Fear of Lawyers.

In the columns of the New York Gazetteer of Sept. 8, 1786, there was a paragraph lamenting the increase of lawyers as threatening to the future prosperity of the community and degrading to freemen. "An honest trade in former days," said the writer, "was all that people of common ability and education were ambitious of, but now no profession is genteel but the lawyer and the merchant. The lawyers are now creeping into every post of importance and thrusting themselves wherever there is a vacancy. Our congress, our assembly, are crowded with them, and even in our great commercial convention there are five lawyers to one merchant."

HAMPTON'S FARM CONTAINS TREASURE

Superstitious White Men and Negroes Are Digging For Gold.

A PECULIAR SUPERSTITION

They Dig by Day, and at Night When Tools Are Laid Away They Encircle the Excavation With Sulphur to Keep Spirits From Interfering.

Another sensation has recently been sprung in the treasure line in this section, it having developed that parties are digging for a supposed lost treasure in the shape of a pot of Spanish gold on the place of E. F. Hampton, a short distance southeast of the city.

Mr. Hampton, in an impressive manner, relates the story himself, which he desires to be absolutely true, as far as the story is concerned. He has his doubt as to any treasure being on the place, for he says if he believed so he would have had a force "digging" long ago.

Mr. Hampton states that a few days ago he was driving over his place, when his attention was attracted by a large excavation, probably ten feet in diameter, under one of the spreading oaks which abound on the farm. He stopped to investigate the cause of this depression, which he realized was not natural, and upon approaching more closely discovered a circle, or "ring," of sulphur around the hole. This was still more puzzling, and he called one of his colored laborers and asked him if he knew anything about this mysterious excavation and the presence of the sulphur.

"I tell yer, boss," remarked the negro in question. "Dere am a lot of niggers and one or two white folks 'roun here what b'lieve dere am a big pot of gold on dis place, and dey am diggin' after it. Dey dun tole me 'bout it and wanted me ter go wid 'em, but I wouldn't. Dey am diggin' dere, an' de sulphur what you see roun' de hole am to keep de sperits from sinkin' de treasure while dey am 'sleep."

Mr. Hampton states positively that parties are encroaching upon his land, and are prospecting for something—and a vigorous proposition it is, too.

It is said that about four years ago a negro on the place did secure a pot of Spanish gold from the earth. He was then a farmer working on "shares" and earning a scant living, but he went to South Florida, where he has since been living in luxury.

Curing the Bad Boy.

You remember the old fashioned woman who when she heard her young son swearing or using naughty words washed his mouth in soapsuds. There is an Atchison boy who could not be reformed in this way, so his father took him in hand. Every day his father called him in and said: "Now, your mother objects to those naughty words you use, but I, being a man, like them. Go over the list for me." The boy promptly complied at first, but in a few days he tired of the words and has now given up his list entirely.—Atchison Globe.

The Toad and Its Skin.

The toad sheds its skin at certain periods, the old one coming off and leaving a new one, which has been formed underneath, in its stead. It does not give its cast off coat away to any poorer toad, and there are no toads dealing in second hand raiment. Neither does it leave its cast off jacket on the ground after the fashion of the shiftless snake. It swallows its overcoat at one mouthful, converting its stomach into a portmanteau.

Noses Out of Joint.

When I was a girl, the aristocratic nose was high, beautifully modeled, rising in a delicately waving ridge and at the tip standing well out from the face and not turned up. But now the fashion has completely changed. The pretty women one sees portrayed in illustrated papers and magazines very seldom have much to speak of in the way of noses.—Dowager in London Chronicle.

The Difficulty About Our Composers.

"Who is your favorite composer?" inquired the artistic person. "I can't say just at this moment," answered Mr. Cumrox, with an appealing glance at his wife, "but it's somebody whose music I can't remember and whose name I can't pronounce."—Washington Star.

Perfect Womanhood

The greatest menace to woman's permanent happiness in life is the suffering that comes from some derangement of the feminine organs.

Many thousands of women have realized this too late to save their health, barely in time to save their lives.

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study.

If a woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has backache, headache, bearing-down sensations, nervousness, irregularities or the "blues," she should start at once to build up her system by a tonic with specific powers, such as

Lydia E. Pinkham's Vegetable Compound

the great woman's remedy for woman's ills, made only of roots and herbs.

It cures Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration, and all Organic Diseases, and is invaluable in the Change of Life. It dissolves and Expels Tumors at an early stage. Subdues Faintness, Nervous Prostration, Exhaustion, and strengthens and tones the Stomach. Cures Headache, General Debility, Indigestion, and invigorates the whole female sysem. It is an excellent remedy for derangements of the Kidneys in either sex.

FREIGHT WRECK; 2 ARE KILLED.

Wreck Occurred on the Atlantic Coast Line Near Jesup.

Jesup, Ga., Jan. 17.—Atlantic Coast Line second 212, fast freight, northbound, and a freight southbound ran into each other at Screven, a small station 11 miles below here on Tuesday night.

Fireman and brakeman, negroes, were killed outright, and up until a late hour the body of the fireman had not been extricated from under the debris, where he was caught.

F. T. Hicks, engineer, at first supposed to be unhurt, received a severe shock, and when interviewed was unable to give an account of the accident. He was brought to Jesup on a special, and sent to Savannah.

From the facts gathered, it seems that the southbound freight had taken the siding at Screven to pick up some cars, leaving the main track clear for the northbound train just before the arrival of 212. The cars taken on broke their coupling, and ran off on to the main line.

Why the headlight on 212 was out, has not been explained, but this was claimed to be the case, and the engine of the train struck the loaded iron cars of the northbound train with such impact that one of the cars of the northbound train was thrown high into the air, resting across the telegraph wires. The tear up was terrific, and traffic was delayed badly.

Prices of Rubber Goods Advanced.

New York, Jan. 17.—Prices of rubber goods have been advanced 5 per cent by the United States Rubber company in its price list to the trade for 1907, which was made public on Tuesday. The rise has been expected in the trade because of the general upward movement of the raw material employed in the manufacture claimed rubber has advanced from 20 to 25 per cent and crude rubber is selling at the highest price since the civil war.

Emigrants Were in Mutiny.

Fort De France, Island of Martinique, Jan. 17.—The French cruiser d'Estrees left here Tuesday for Trinidad convoying the French line steamer Canada which had been detained here by a mutinous outbreak among the emigrants on board that vessel. The armored cruiser Klebor is expected to arrive here Jan. 20.

Discovery Caused Consternation.

St. Petersburg, Jan. 17.—Consternation has been caused in governmental circles by the discovery that the assassin of General Vonder Launitz, late prefect of police, was the son of a prominent personage connected with the government and a member of an aristocratic family.

FEARFUL ITCHING BURNING SORES

Boy in Misery 12 Years—Eczema Spread Over Body in Rough Scales, Cracked, Inflamed, and Swollen—Case Pronounced Incurable, but Completely Cured by Two Sets of Cuticura Remedies.

HIS SKIN NOW FINE AND SMOOTH AS SILK

"I wish to inform you that your wonderful Cuticura has put a stop to twelve years of misery I passed with my son. As an infant I noticed on his body a red spot and treated same with different remedies for about five years, but when the spot began to get larger I put him under the care of doctors. Under their treatment the disease spread to four different parts of his body. The longer the doctors treated him the worse it grew. During the day it would get rough and form like scales. At night it would be cracked, inflamed, and badly swollen, with terrible burning and itching. When I think of his suffering, it nearly breaks my heart. His screams could be heard down-stairs. The suffering of my son made me full of misery. I had no ambition to work, to eat, nor could I sleep.

"One doctor told me that my son's eczema was incurable, and gave it up for a bad job. One evening I saw an article in the paper about the wonderful Cuticura and decided to give it a trial.

"I tell you that Cuticura Ointment is worth its weight in gold, and when I had used the first box of Ointment there was a great improvement, and by the time I had used the second set of Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent my child was cured. He is now twelve years old, and his skin is as fine and smooth as silk. Michael Steinman, 7 Sumner Avenue, Brooklyn, N. Y., April 16, 1905."

Hal Dick Shot in Back.

Cheraw, S. C., Jan. 17.—Mr. Hal Dick, of Columbia, representing the Royster Guano company, was driving from Chesterfield to Cheraw. Soon after leaving Chesterfield a negro man shot at him with a small rifle. The bullet went through the back of the buggy and the top, which was down, and lodged in Mr. Dick's back, inflicting a very slight flesh wound. Mr. Dick drove back to Chesterfield and reported to Sheriff Douglass, who put his bloodhounds on the trail and captured the negro. No one can account for the negro's conduct, as he did not know Mr. Dick, or the negro driver, and neither had spoken to him.

Wants a Bureau of Labor.

Columbia, S. C., Jan. 17.—Senator Francis H. Weston, of Richland, has a bill of wide scope establishing a department of labor in connection with the department of agriculture, commerce and immigration. This is a very sweeping measure. Mr. Weston declares that it is drawn after a careful study of the laws of other States, and that it is not at all stringent in its requirements of the corporations. It is intended, he says, to give effect to the child labor laws and to protect the manufactuurer who tries to obey the law; it enacts the ten-hour or sixty-hour bill; it provides for inspection of all manufacturing plants and for their ventilation, etc.

Change Clothes Yearly.

Birmingham, Ala., Jan. 17.—City Physician Hayes, of this city, in his annual report makes some startling statements in regard to the condition at the south side city prison. He says conditions are "barbaric and inhuman in the extreme, and are a disgrace to a civilized community." He says there is no place for prisoners to bathe, and that in many cases inmates do not change clothing more than once a year. He recommends a new jail.

Female Weakness

"Last Fall," writes Mrs. S. G. Bailey, of Tunnelton, W. Va., "I was going down by inches, from female disease, with great pain. After taking Cardui, Oh! My! How I was benefited! I am not well yet, but am so much better that I will keep on taking Wine of Cardui till I am perfectly cured."

Despite the envious attacks of jealous enemies and rivals, Cardui still holds supreme position today [as in the past 70 years] for the relief and cure of female diseases. It stops pain, tones up the organs, regulates the functions, and aids in the replacement of a misplaced organ.

Comparing our lives with those of the pilgrim fathers, we are rich beyond their greatest dream or desire. Immaterial things did not worry them as they do us: they asked only to be free to worship God and had dared an unknown sea and an untried world for this principle, and there on the "rock bound coast" planted the seeds of freedom that were to bring forth fruit on through the ages.

A sensational test of the "Jim Crow" law is reported from Pensacola. A white man, one Mike Puhtell,. according to The News, refused to move to make room on a car for negroes, was arrested, and now purposes to test what is known as the "Separate Street Car" ordinance of Pensacola. The Florida Supreme Court has declared the ordinance constitutional, and the question has been taken to the Supreme Court of the United States. Why a white man should choose to test an ordinance which the great majority of both races have accepted is hard to understand.—Times-Union.

Young man, let us give you the benefit of our observation. We have noticed that at least nine-tenths of the young men who have been before the courts for misdemeanors are those who take no interest whatever in education, seldom read a newspaper, and are always ready to make fun of other young men who use correct language and try to be somebody. It comes natural to them to discourage the studious and ambitious young men of their acquaintance. Their minds run toward dirty stories, midnight sprees and bad company. This in a short time means trouble, a sheriff's invitation to attend court, and a fine or term in jail.

Many an enthusiastic mountain tourist who has sacrificed morning sleep to witness a sunrise from the summit has experienced disappointment. The splendor extends over too wide an area; it lacks concentration—accentuation. The sunrise of the short horizon, seen from the average altitude, appears brighter as well as narrower. It requires no wide ranging of the eye, no shifting of the point of attention. It is not weakened by its own diffusion. You may carry this principle over into the philosophy of life. The short horizon—which is the average—has its distinct advantage. You will doubtless get more out of life at the average altitude than if you live always in some extraordinary height.

Last week a man stepped up to us and said he would pay us every cent he owed us if he lived till Saturday night. We presume the man died. Another man said he would pay us in a day or two as sure as we were born. Query: Did the man lie or were we never born? Another said he would settle as sure as shooting. We presume that shooting is very uncertain. Another man said he hoped to go to the devil if he did not pay us within three days. Haven't seen him since; suppose that he has gone, but trust he did not hope in vain. Quite a number said they would see us tomorrow. They must have been stricken blind, or tomorrow has not come. One man told us six months ago that he would pay as soon as he got some money. The man would not lie—of course he has not got a cent since.

THE UNPROTECTED FARMER.

The revised figures of the Agricultural Department of the total crop of winter and spring wheat and its farm value December 1 have just been issued. These figures show that the price of winter wheat was 67 cents a bushel and the price of spring wheat 60 cents. The average farm price of spring wheat is lower than the farm price of winter wheat because the crop is raised further from ports of export than the winter wheat is, and therefore the freight charges to the ports of export cost more. Farmers whose chief reliance is on their wheat crop should take notice that the bogus tariff protection of 25 cents a bushel that the Republicans have fooled them with for the past ten years, since the passage of the Dingley bill in 1897, has entirely failed to force up the price of wheat to the same average increased price of other commodities. Nor have the growers of corn or oats and other cereals participated in the advance in prices, though the producers of all these farm products are claimed by the Republicans to be protected by the tariff. It would be just as sensible to pretend to protect the cotton grower, two-thirds of whose products are exported, so cotton is on the free list.

Bradstreet's index figures for December 1, 1906, show that the average increase in the price of all commodities since 1896, is 55 per cent, but the farm price of wheat is nine cents a bushel lower now than it was in 1896, according to the figures reported by the Agricultural Department, published in the United States Statistical Abstract for 1905 on page 516. As the price of farm land and the increased cost of living and labor on the farm, as in the cities, must make the cost of raising wheat, corn, oats and other cereals approach 55 per cent more than in 1896, the farmer who raises these products is evidently not protected by the tariff as the producers of other products are protected, for while wheat is now lower in price, the average price of the products of the tariff protected trusts is much higher.

This low price of wheat entirely demolishes the chief claim of the standpatters that the trust protecting tariff also protects the farmer by giving him a home market at increased prices for his products. On those products of the farm, such as milk, butter, eggs and vegetables that are not exported, the increased demand caused by the growth of cities, chiefly caused by the enormous immigration, has advanced prices to a par with other commodities, but what we produce a surplus of must be exported, and the price is fixed in the markets of the world, according to the supply and demand.

The wheat farmers have patiently waited for relief from the plundering of the tariff protected trusts, but have not received any alleviation, and are still confronted with the determination of the Republican leaders to refuse to revise the tariff. In some Congressional districts, notably in Iowa and Minnesota, many Republican farmers refused to support the standpat candidates, and as the eye of more are opened to the enormity of protecting a comparatively few special interests—the trusts—at the expense of the much greater number of farmers, and in fact all consumers, there will be more independent voting at future elections.

The rods of rancid rot daily printed in the big daily papers about the vulgar rich, their savings and doings; their comings and goings; what they eat and how they eat it; what they drink and how much of it; what they wear and how, when and where they wear it; minute write-ups, with pictorial illustrations of every dud worn by brainless women, full description of every garment, including the embroidered and hem-stitched clothes, prepared before-hand for the unborn brats—all their fulsome, nauseous stuff, drooled out daily in the big papers—by the column and by the whole page—a sort of gross pandering to riches—a servile worship of snobocracy; a putting of the forehead to the ground when the money moloch passes down the street, does more to stir up the devil in man than all else combined. This sort of man worship may go all right in countries where one man is acknowledged to be better than another, but it will never go in this land of the free and the home of the brave, and the sooner the big papers let up on this daily flouting of money in the faces of decent people, the quicker all sorts of devilishness will cease to be a menace to our government.

For some reason—probably because of the good times—the desertions from the United States army show a vast proportionate increase during the past year. They numbered 6,258 in the last fiscal year. This number is 7.4 per cent of the whole army of enlisted men in the regular service and three per cent higher than preceding years. The report of General Ainsworth shows that the actual strength of the entire military establishment on June 30, 1906, was 3,750 officers and 55,719 enlisted men in the regular army, 26 officers and 522 enlisted men in the Porto Rico provisional regiment of infantry and 116 officers and 5,043 enlisted men in the Philippine scouts, making a total of 3,892 officers and 61,284 enlisted men.

Hog and Boiled Turkey.

"The hog," said a Baltimore judge, "is the greatest animal in the world. Every part of him has a different flavor, and each flavor is better than that of any other animal in the world."

"Better than a terrapin?"

"I don't call a terrapin an animal. The terrapin is a creation. But, to return to the hog, all of him is good, from his tail to his front feet. Chine is a great dish, but it doesn't compare with jowl. Jowl and turnip tops in the spring can be beaten by only one thing, and that is a boiled hen turkey. Nobody but a Yankee or a heathen would roast a hen turkey in the spring. Hen turkeys are fat before they lay, and the flavor is delicious. Properly cooked and served, such a dish is fit for kings, and nations have gone to war for less cause."—Baltimore News.

NOTICE OF APPLICATION FOR LETTERS PATENT.

Notice is hereby given that on the 7th day of February, A. D. 1907, the undersigned will apply to His Excellency, Napoleon B. Broward, Governor of the State of Florida, for Letters Patent on the Charter proposed accompanying this notice.

Under and pursuant to the requirements of the Statutes of the State of Florida, we, the undersigned, C. W. Chase, Clarence B. Strouse, E. E. Cannon and J. E. Graham, desiring for ourselves, our associates and successors, to form and be incorporated as a corporation, do hereby give notice that we shall apply to the Governor of the State of Florida for Letters Patent.

THE PROPOSED CHARTER IS AS FOLLOWS:

First—The corporate name of said corporation shall be "THE AMERICAN FLANGE FROG AND RAILWAY IMPROVEMENT COMPANY," located and having its place of business at Gainesville, Florida, and such other place or places of business as may, from time to time, be designated by the Board of Directors.

Second—The general nature of the business to be transacted and the purposes and objects for which this corporation is organized are: the manufacture and sale of the "Graham flange frog," and other railway appliances; the purchase and sale of foreign and domestic patents; to buy, mortgage, sell or deal in real estate and personal property; to engage in any and all manufacturing enterprises and industries, that may be managed, owned or controlled by a corporation of this character; to conduct, own, manage, acquire or operate any and every kind and character of business that may be conducted, owned, managed, acquired or operated by a corporation of this character under the laws or Florida now existing or hereinafter enacted, and generally to do all things necessary and proper for carrying on said business or to protect and advance the interest thereof, and for these purposes to have and possess all the rights, benefits, privileges and immunities incident to and given under the laws of this State to a corporation of such character.

Third—The amount of the capital stock of said corporation shall be Five Million Dollars, to be divided into Fifty Thousand shares, at a par value of One Hundred Dollars each, payable in lawful money of the United States, or in property, patents, franchises, labor or services, at a just valuation to be fixed by the incorporators, or by the directors at a meeting called for such purpose.

Fourth—This corporation shall exist for a period of ninety-nine years, and its corporate existence shall commence on the date of the issuance of Letters Patent.

Fifth—The business of this corporation is to be conducted by a President, Vice-President, Secretary and Treasurer, and a board of not less than three nor more than thirteen Directors, of which Board of Directors the President, Vice-President, Secretary and Treasurer shall be members. The offices of Secretary and Treasurer may be held by one and the same person. The officers and directors shall be elected annually at the annual stockholders' meeting, the first of which shall be in the company's general office in Gainesville, Florida, at two o'clock p. m. on the second Thursday in February, 1907, and annually thereafter, and until such first election the names of the officers who are to conduct the business of the corporation, until those elected at the first election shall be qualified, are as follows: C. W. Chase, President; Clarence B. Strouse, Vice-President; E. E. Cannon, Secretary and Treasurer. The Board of Directors shall be: C. W. Chase, Clarence B. Strouse and E. E. Cannon, until their successors shall be elected and qualify. The number constituting the Board of Directors may be changed and fixed by the stockholders at any meeting called for that purpose, provided that said board shall not consist of less than three nor more than thirteen members.

Sixth—The highest amount of indebtedness or liability to which said corporation can at any time subject itself shall not exceed the amount of the capital stock authorized under this charter.

Seventh—The names and residence of the subscribers are: C. W. Chase, Gainesville, Florida; E. E. Cannon, Gainesville, Florida; Clarence B. Strouse, Salem, Virginia; J. E. Graham, Salem, Virginia.

Eighth—The subscribing incorporators towit: C. W. Chase, Clarence B. Strouse, E. E. Cannon, J. E. Graham, have subscribed for the following amount of stock set opposite their names respectively:

C. W. Chase, twelve hundred and fifty shares.

Clarence B. Strouse, twelve hundred and fifty shares.

J. E. Graham, twenty-five hundred shares.

E. E. Cannon, two hundred and fifty shares.

The amount of stock so subscribed exceeds ten per cent of the capital stock authorized under this charter.

Ninth—The above and foregoing charter is subscribed to by the following persons, viz:

C. W. CHASE,
CLARENCE B. STROUSE,
E. E. CANNON,
J. E. GRAHAM.

STATE OF FLORIDA, }
ALACHUA COUNTY. }

Before me personally appeared C. W. Chase, Clarence B. Strouse, E. E. Cannon and J. E. Graham, who being first sworn each for himself says and acknowledges that he signed the above and foregoing charter in the manner and for the uses and purposes therein set forth and expressed, and that the above signature is his signature.

In testimony whereof I have hereunto set my hand and affixed my notorial seal at Gainesville, Florida, on this 8th day of January, A. D. 1907.

UNPROFITABLE FEEDING

Intelligent stock raisers know that a certain amount of feed is necessary to keep an animal alive. They might feed that amount as long as it lives, and it would never gain a pound.

There is no profit in that kind of feeding. The kind that pays is the kind that builds flesh rapidly. If it takes twenty pounds of food each day to keep a sheep alive, twenty-five pounds a day will make it gain flesh. It's the extra five that brings the profit. The first five pounds amounts to nothing, nor does the second or third or fourth five pounds.

It's the same way with advertising. You have to do a certain amount to overcome the resistance of the public.

You have to do a certain amount of advertising to make them wake up to the fact that you are in business at all. You have to pay a certain amount to keep your advertising alive. What you pay above that amount brings profit.

Some advertisers fail because they do not use enough space. They use barely enough or sometimes not quite enough to make the advertising self sustaining. A little bit more would make it profitable. It is better to advertise a little too much than not quite enough.—Charles Austin Bates.

Some of our advertisers could enlarge their space with profit.

LAUNCH BURNS AT MIDNIGHT.

Prominent Columbus Man and His Family Have Narrow Escape.

Columbus, Ga., Jan. 17.—News has reached Columbus of the destruction of the gasoline launch Lucie, the property of Arthur Davis, of Columbia, Ala., on the lower Chattahoochee river.

Mr. Davis, his family and a number of friends, among them several ladies, were on board the launch, on an outing, at the time the boat took fire.

About midnight after the ladies and children had retired, and when the gentlemen were sitting up in the boat conversing, Mr. Davis picked up a lantern and went near the gasoline tank. The gasoline had been escaping, and when it came in contact with the light it exploded, the fire quickly spreading to all parts of the launch. The ladies and children were aroused and the party barely escaped to the shore.

Mr. Davis received a painful burn on his hand while assisting the ladies to the shore. Subsequently the gasoline tank exploded and the launch was completely destroyed by the fire and gasoline.

All the effects of the party were burned, and they presented a rather weird appearance, walking through the dense Florida woods wrapped in bed clothing and other improvised costumes.

The explosion occurred near Fowler's camp and the hospitality of the camp was extended the party. They made their way to Apalachicola, Fla., on a borrowed launch.

NOVEL CURE FOR COLDS.

Healing Medication That is Breathed, Giving Quick Relief.

It seems just as ridiculous to put medicine into the stomach to cure a cold in the head or lungs as it does to go out in the rain if we want to keep dry.

The fact that many people right in Gainesville cough and hawk and snuffle for days and weeks after they treat a cold with the usual stomach dosing, shows how valueless are the ordinary cough and cold cures.

The right way to cure a cold in the head or a cough and irritation in the throat and lungs, is by breathing Hyomei's medicated air. Put a few drops of Hyomei in the neat pocket inhaler that comes with every outfit and breathe this healing air for a few times and immediate relief will be noted. The medication goes right to the spot where the disease germs are located and renders them harmless in the future.

At the same time the soothing and healing effects of Hyomei on the irritated mucous membrane give quick relief, and the cough or cold is broken up.

The best evidence of the great value of Hyomei in curing coughs, colds and all bronchial troubles is the fact that J. W. McCollum & Co. give an absolute guarantee with every outfit they sell, that if it does not give satisfaction the money will be refunded.

A complete Hyomei outfit, consisting of a bottle of Hyomei, the inhaler and a medicine dropper, costs but $1, while extra bottles of Hyomei, if needed, can be obtained for only 50c.

Accident on Seaboard Air Line.

Raleigh, N. C., Jan. 17.—The Seaboard Air Line's Florida special north bound ran in o an open switch 2 miles north of Raleigh early Wednesday. The boiler of the locomotive exploded and the train caught fire from a gasoline lamp. There were no fatalities. The body of John C. Durbin, of Harrisburg, Pa., which was in the baggage car was cremated.

Mad Dog Bites Three People.

Cordele, Ga., Jan. 17.—J. N. Lewis and two negroes were bitten here by a supposed mad dog. Mr. Lewis left for Atlanta, where he went to be treated at the Pasteur institute. He took along with him the head of the dog, which will be examined by specialists to try to determine whether or not the dog had hydrophobia. The city authorities are now killing every loose dog in the city.

A Thousand Dollars Worth of Good.

A. H. Thurnes, a well known coal operator of Buffalo, O., writes: "I have been afflicted with kidney and bladder troubles for years, passing gravel and stones with excruciating pain. I got no relief from medicine until I began taking Foley's Kidney Cure; then the result was surprising. A few doses started the brick dust like fine stones and now I have no pain across my kidneys and I feel like a new man. It has done me $1,000 worth of good." J. W. McCollum & Co.

Big Mortgage Is Filed.

Macon, Ga., Jan. 17.—A mortgage has been filed in the superior court of Bibb county by the Macon, Dublin and Savannah railroad whereby that road secures $1,840,000 from New York Trust company and Willard King to be used for further improvements of the road. The rate of interest is 5 per cent.

Wise Counsel From the South.

"I want to give some valuable advice to those who suffer with lame back and kidney trouble," says J. R. Blankenship, of Beck, Tenn. "I have proved to an absolute certainty that Electric Bitters will positively cure this distressing condition. The first bottle gave me great relief and after taking a few more bottles I was completely cured—so completely that it becomes a pleasure to recommend this great remedy." Sold under guarantee at all drug stores. Price 50c.

A Pole in Jail.

Charleston, S. C., Jan. 17.—Rostan Rosenteks, a Pole, who speaks but little English, is held at the police station for investigation on the charge of entering the premises of E. P. Grice. Several robberies have recently been committed and the police department has gotten busy.

Awarded a Gold Medal.

London, Jan. 17.—Ernest Brown, a professor of mathematics at Haverford college, has been awarded a gold medal by the Royal Astronomical society in recognition of his researches into the lunar theory.

Chronic Constipation Cured.

One who suffers from chronic constipation is in danger of many serious ailments. Orino Laxative Fruit Syrup cures chronic constipation as it aids digestion and stimulates the liver and bowels, restoring the natural action of these organs. Commence taking it today and you will feel better at once. Orino Laxative Fruit Syruy does not nauseate or gripe and is very pleasant to take. Refuse substitutes. J. W. McCollum & Co.,

Death Penalty for Assault.

Chicago, an. 17.—The death penalty for criminal assaults on women and girls was demanded of teh legislature by the Chicago city council, which had been recommended by the committee on state legislation. The resolution also provides a penalty of life imprisonment for cases of attempted assault.

Will Take Part in Campaign.

Berlin, Jan. 17.—Prince Von Buelow, the German chancellor, it is stated here, has decided to take part in the electoral campaign. This is a step against all tradition and is brought about, it is said, by unfavorable signs, so far as the government is concerned, in the election prospects.

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guranteed at all drug stores. 50c and $1. Trial bottle free.

Heavy Rains in Indiana.

Madison, Ind., Jan. 17.—River and resembled those of 1884, when the weather conditions in this section resembled those of 1884, when the highest river stage was reached. It has rained steadily for several days and the river is now at the 43 foot mark, and swelling over an inch an hour.

How to Avoid Pneumonia.

We have never heard of a single instance of a cold resulting in pneumonia or other lung trouble when Foley's Honey and Tar has been taken. It not only stops the cough, but heals and strengthens the lungs. Ask for Foley's Honey and Tar and refuse any substitute offered. Dr. C. J. Bishop of Agnew, Mich., writes: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." J. W. McCollum & Co.

KIRBY SMITH CHAPTER.

U. D. C. Held Interesting Meeting, at Which Officers Were Elected.

The meeting of Kirby Smith Chapter, United Daughters of Confederacy, held at the home of the president, Mrs. John Chesnut, Thursday afternoon, was of unusual interest, since the annual election of officers was to occur. There were a number of the members present, and the following officers were elected for the ensuing term:

Mrs. J. M. Haile, president; Mrs. J. F. McKinstry, Jr., first vice-president; Mrs. L. W. Jackson, second vice-president; Mrs. Evans Haile, recording secretary; Mrs. J. E. Wainwright, corresponding secretary; Mrs. H. H. McCreary, treasurer.

The various reports showed the Chapter's affairs to be in excellent condition, with a large and enthusiastic membership.

Mrs. John Chesnut, the retiring president, has made an excellent officer. She could have been re-elected, but declined on account of ill health. The Chapter greatly appreciates her earnestness in the work, as she was a faithful and presistent worker.

While hunting on Bivin's Arm, Alachua lake, yesterday, Nathan Robinson, the colored barber, killed an alligator eight feet, five inches long. It was killed with No. 8 shot, five loads being necessary to put the saurian to "sleep." As one of the shots was fired a rabbit ran between Robinson and the 'gator, with the result that Robinson will have rabbit stew as well as 'gator steak upon which to appease his appetite today. Charlie McDonald, another colored man, was with Robinson, and the men brought the alligator to town in a wagon and quite a number of persons viewed the monster in front of Harrold's market late in the evening. This is the largest alligator killed in this vicinity for some time.

The hedge work around the court house square, on the exterior of the fence, has been completed, and within the next two years will grow to fine proportions, making a fine match for the hedge on the interior of the fence. This hedge will prove of great advantage to protecting the lawn which the county commissioners propose to plant, and will add greatly to the appearance of the premises.

THE REASON WHY

We So Strongly Endorse and Recommend Vinol to the People of Gainesville.

Our local druggist, Mr. W. M. Johnson, says: "We do not believe there is a man, woman or child in Gainesville whom our famous cod liver preparation, Vinol, will not benefit at this season of the year.

"We believe there is no need for so many people to drag around run-down, tired out and debilitated, or for old people to remain weak and infirm when we guarantee Vinol will restore health and strength."

Continued Mr. Johnson: "For centuries cod liver oil has been recognized as the grandest of all body-building agents for wasted human strength and vitality, but on account of the nauseating and system-clogging oil which enveloped its curative properties few could take it with benefit.

"In Vinol you get in a concentrated form every one of the curative and strength-creating elements of cod liver oil actually taken from fresh cods' livers, the useless, system-clogging oil eliminated, and tonic iron added.

"Vinol is guaranteed by over five thousand of the leading druggists of the United States to create strength for old people, for the run-down, tired and debilitated, weak, sickly women and children, and after a severe sickness.

"We ask every such person in Gainesville to try Vinol. It costs nothing if it fails."—W. M. Johnson, Druggist.

NOTE.—While we are sole agents for Vinol in Gainesville it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

THE NEWS FROM MELROSE.

Bishop Weed Makes Annual Visit. Pleasant Outing—Notes.

Melrose, Jan. 17.—Right Rev. E. G. Weed made his annual visit to Trinity Memorial Church on Sunday last, and was greeted by large congregations at both services, who listened with much appreciation to the Bishop's excellent sermons. The Bishop expressed his gratification at the many improvements made in the church since his last visit. The handsome silver almsplate, the new Bible and the two sets of prayer books and hymnals for the altar just presented by Mrs. H. W. Hamlyn, Mrs. L. Darlington and Mrs. J. A. Remmel, were used for the first time at the services. The singing by the choir under the able management of Mrs. Games was very good, especially the rendering of "Calvary" by Miss Flora Morris during the offering.

The oyster supper to be given by the Masonic brethren on Feb. 1 will be served at the Huffman House at 6:30 p. m.; tickets, 50 cents. The public dedication of their new hall will commence at 8 p. m. Visiting brethren are cordially invited to join.

Among the visitors in town during the week were N. Ittner, Atlanta, Ga., who was registered at the Huffman House; L. McLeod of Coolee, Fla.; H Grimes, Palmetto; F S. Carrier, Palatka, and W. Gale, Chicago.

Mrs. C. P. Huffman and son, Charles, Mrs. L. M. Baldwin and Rev. B. Moseley left Tuesday for Live Oak to attend the State Baptist Convention.

Another one of the pleasant outings in the Hamlyn launch was given on Tuesday afternoon. Tea was served at the Pumpkin Patch, Mrs. Treadwell being the hostess.

The steamer Alert has been laid up at Waldo for repairs for the past two weeks, causing much inconvenience to the merchants, who had to have their freight hauled by team from Waldo.
